

Product/trade name(s)		Zinc Lead Alloys	
Type of product	Preparation		
Substance(s) in product		Substance 1	Substance 2
Substance(s) name	Zinc	Lead	
CAS number	7440-66-6	7439-92-1	
EINECS number	231-175-3	231-100-4	
Nyrstar's role(s)			
Regarding Preparation:	Manufacturer		
Regarding each substance:	Manufacturer	Downstream User Importer into EU	
Tonnage band (manufactured+imported)		>1000t	>1000t
Pre-registration			
Status pre-registration	completed	completed	
Pre-registration nbr Nyrstar Belgium SA/NV	05-2114324962-48-0000	05-2114349612-50-0000	
Pre-registration nbr Nyrstar Budel BV	05-2114640143-61-0000	05-2114684996-22-0000	
Pre-registration nbr Nyrstar France SAS	05-2114646551-50-0000	none or de-activated	
Pre-registration nbr Nyrstar Germany GmbH	none or de-activated	none or de-activated	
Pre-registration nbr GM Metal SAS	05-2114676407-39-0000	none or de-activated	
Registration			
Need to register	yes	yes	
Intention to register	yes	yes	
Anticipated deadline for the registration	3,5 years 01/12/2010	3,5 years 01/12/2010	
Hazard information			
Substance(s) likely to be classified as			
CMR 1 or 2 under REACH	no	no	
PBT or vPvB	no	no	
R50/53	no	no	
Identified as SVHC on the candidate list agreed by the ECHA Member State Committee in Oct.2008?	no	no	
Exposure Scenarios for Preparation			
Input needed from customer to develop Exposure Scenarios in Chemical Safety Assessments	Yes, to be further specified within Zinc Consortium (www.reach-zinc.eu)		
Details composition and shape		See technical datasheets on website www.nyrstar.com
